

KV-C32TA

32-point Connector Transistor (Sink)

SPECIFICATIONS

Model	KV-C32TA	
Type	Output Unit	
External connection mode	Connector (MIL standard) ^{*1}	
Input	Number of inputs	32 points
Output	Output form	Transistor (NPN)
	Rated load	DC 30 V, 0.2 A
	Leak current at OFF	100 μ A or less
	Residual voltage at ON	0.5 V or less
	Common point mode	32 points/1 common (2 terminals) ^{*2}
	Operating time	OFF to ON: 10 μ s or less, ON to OFF: 200 μ s or less
Internal current consumption	45 mA or less	
Weight	Approx. 100 g	
^{*1} In conformity with MIL-C-83503. ^{*2} Although the KV-C32TA(P) and KV-B16TA(P) have 2 COM points, internally they share a common circuit.
